

Microsoft 365 Migration Services
for Enterprise Organizations

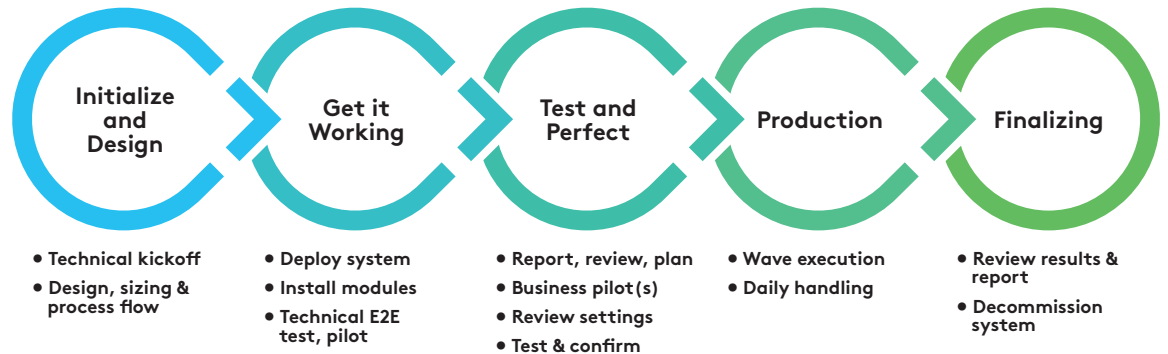

Archive, PST, and Mailbox Migrations

Our bespoke migration services allow large organizations to centralize all email data in Microsoft 365.

Seamlessly transfer mailboxes and legacy archives on a 'fixed-cost, fixed-outcome' basis, ensuring a fast, reliable service with zero risk.

Email and Archive Migration Process

✉ Mailbox Shuttle

Mailbox Shuttle is an enterprise-class solution for migrating live email systems quickly and safely to Exchange and Microsoft Office 365. The solution uses intelligent automation to minimize end-user disruption. It is highly customizable to ensure a seamless transition, even for more complex enterprise-scale email environments.

🚀 Archive Shuttle

Archive Shuttle is advanced email archive and journal migration software, designed to quickly and securely transfer data to Microsoft Office 365, Exchange, or other archiving systems. It is highly customizable, allowing data to be migrated according to business needs, and chain of custody is preserved at all times.

Better Together

Combined mailbox and archive migrations ensure consistency across schedules, negating the need for extensive manual oversight and reducing project steps by nearly 50%. Our customizable scripting engine allows you to monitor the entire migration workflow from a single interface.

"Made a potentially very complex migration simple"

Quadrotech's products are designed by people who clearly understand the technology and the challenges faced when migrating from on-premises Exchange and Enterprise Vault to Office 365.

We used Quadrotech to migrate 18TB of Symantec Enterprise Vault content along with user mailboxes from Exchange to Office 365, as well as ingesting a couple TB of PST files. Their software turned what would have been a very complex and messy migration into a pretty seamless one. I found their professional services team are extremely knowledgeable and helpful.

PST File Discovery, Consolidation, and Migration

PST Flight Deck

PST Flight Deck is the industry's most advanced solution for identifying, migrating and eliminating PST files in enterprises of all sizes.

Our market-leading technology ensures all PSTs are located, repaired, processed, and ingested to your chosen platform, while irrelevant and duplicate files are filtered and deleted. This whole process is achieved while the user retains access to their data.

Tenant to Tenant Migration

Cloud Commander

Powered by Microsoft Azure and Quadrotech's AIP technology, Cloud Commander migrates Exchange Online data between tenants at speeds of up to 75GB per hour.

Custom script engines and intelligent workflows allow for the automation of complex cross-tenant migrations, with support for SharePoint, OneDrive for Business, and Microsoft Teams.

"Fantastic Product, Fantastic People, Fantastic Company"

Quadrotech took all the complexity of a huge project like a PST Migration and made it a completely guided process, with white glove service. They helped us inventory PSTs across ALL possible sources, and gave us insightful reporting that showed who the PSTs belonged to, size reports, and migration recommendations for each user.

Once the process was started and tested, it was just a matter of time to complete the project with the help of our Quadrotech engineers.

We were able to move all our PSTs, while not locking up all of our internal resources. The Quadrotech white glove service really helped us accomplish a seemingly impossible project.

About Quadrotech.

Quadrotech takes organizations to and through the cloud, delivering speed, stability, and control when you need it most.

With a fixed price, fixed outcome approach, our managed migration services are efficient and predictable, so you know exactly what you're getting when you take off. Because transformation doesn't stop once you're in the cloud, our lightning-fast tenant to tenant migration tool can relocate, consolidate or migrate tenants at record speeds, enabling your infrastructure to grow and adapt as quickly as you do.

In the cloud, we provide you with the control you need for ongoing success. Get an unobstructed view of your environment, with our comprehensive management platform made up of highly integrated services for adoption, automation, delegation, management and full visibility. Take back control, with the ability to 'see' and 'do' in one interface, whether you have one tenant or hundreds.

Quadrotech is a global ISV and gold managed Microsoft partner providing solutions that migrate, monitor, manage, and secure Microsoft 365 tenants and the data within them. We are dedicated to helping you grow revenue, reduce risk, and improve profits of your Office 365 services practice.
